ECONOMIC DEVELOPMENT & TOURISM

Texas Wind Energy Industry Company Directory

February 2010

www.texaswideopenforbusiness.com

Texas Wind Energy Industry Companies

The wind energy industry includes companies primarily engaged in manufacturing, providing services, energy utility companies, wind farms, R&D firms, and other related activities. The North American Industry Classification System (NAICS) is the standard used in classifying business establishments; however, the wind energy industry is not uniquely classified under the NAICS system, and as a result, companies operating in this industry are not as easily identified through simple NAICS listings as in other industry sectors.

The companies included in this directory have been compiled from various sources, including:

- The Texas Renewable Energy Industries Association (TREIA) members posted at www.treia.org
- The Wind Coalition website at www.windcoalition.org
- Company websites and Internet searches
- Company supplied data
- infoUSA's ReferenceUSA Texas dataset publicly available at <http://www.texasindustryprofiles.com/apps/eci/index.asp>

Disclaimers:

The company data contained within this directory represent the best available information, but this directory is neither an official nor complete compilation. The listing formats and amount of included data for individual entries vary based on sources available.

The ReferenceUSA Texas dataset categorizes businesses according to NAICS codes at the broad four-digit level, meaning more specific classifications are unavailable for searching. Additionally, this dataset, which is made available by the Texas Workforce Commission, may not represent the most current information available. Company information in ReferenceUSA is published by infoUSA at P.O. Box 27347, Omaha, NE, 68127, (800) 555-5211. If any of the ReferenceUSA company listings in this directory contain errors, please contact infoUSA to report them for correction.

Due to formatting limitations from original sources utilized, this directory is not available in Excel format.

Table of Contents

Manufacturers*	3
Services/Transportation	21
Utilities	34
Wind Farm Projects	34
Non-Profit/Government/Academic	35

Manufacturers*

**Most, not all, of the Wind Energy manufacturing companies below were located using ReferenceUSA records and industry codes NAICS 3336 – Turbine and Power Transmission Equipment and NAICS 3323 – Architectural and Structural Metal*

Specializes in Greenfield utility-scale wind development.

Utilities

Comprehensive lists of Texas utility companies are available from the Texas Public Utility Commission at <http://www.puc.state.tx.us/electric/directories/index.cfm>.

Wind Farm Projects

Texas wind farm projects are listed in various places, including the following:

- <http://www.puc.state.tx.us/electric/maps/gentable.pdf>
- <http://www.awea.org/projects/projects.aspx?s=Texas>

Non-Profit/Government/Academic

Alternative Energy Institute (AEI)

West Texas A&M University
Kilgore Research Center
WT Box 248
Canyon, TX 79016
Phone: 806-651-2295
Fax: 806-651-2733

www.windenergy.org/

The AEI was formed in 1977 as an outgrowth of wind energy research begun in 1970. It offers wind, solar technical, informational, policy research, and consultation.

American Wind Power Center & Museum

1701 Canyon Lake Drive
Lubbock, TX 79408-4908
www.windmill.com
Phone: 806-747-8734
Fax: 806-740-0668

The AWPC is a museum for the American style waterpumping windmill and the history and utilization of wind energy for electric power. Over 125 windmills and wind turbines are exhibited.

The Electric Reliability Council of Texas (ERCOT)

7620 Metro Center Drive
Austin, TX 78744-1613
Phone: 512-386-9116
www.ercot.com/

ERCOT manages the flow of electric power to 22 million Texas customers - representing 85 percent of the state's electric load and 75 percent of the Texas land area. As the independent system operator for the region, ERCOT schedules power on an electric grid that connects 40,000 miles of transmission lines and more than 550 generation units.

Houston Advanced Research Center

4800 Research Forest Drive
The Woodlands, TX 77381
Phone: 281-364-6087
Fax: 281-364-6052
www.harc.edu

Non-profit organization dedicated to improving human and ecosystem well-being through the application of sustainability science and principles of sustainable development.

Interstate Renewable Energy Council

1200 Elm Street #212

Austin, TX 78703
Phone: (512) 789-7885
www.irecusa.org

Interested in promotion and use of renewable energy and sustainability strategies.

Lower Colorado River Authority (LCRA)

3700 Lake Austin Blvd.
Austin, TX 78703
Phone: 512-473-3200 or 1-800-776-5272
www.lcra.org/energy/power/renewable_energy/windpower.html

LCRA's mission is to provide reliable, low-cost utility and public services in partnership with our customers and communities and to use our leadership and environmental authority to ensure the protection and constructive use of the area's natural resources. LCRA is a Texas conservation and reclamation district operating with no taxing authority.

National Institute for Renewable Energy (NIRE)

Office of Technology Commercialization
Assistant Managing Director
Texas Tech University System
1901 University, Suite 308
Lubbock, TX 79410
Phone: 806-742-4076
<http://thenire.net/about-nire.php>

A public-private partnership formed in 2009 by the Innovate Texas Foundation in collaboration with the Texas Tech University System to focus on wind energy projects.

Public Utility Commission of Texas (PUCT)

1701 N. Congress Avenue
PO Box 13326
Austin, TX 78711-3326
Phone: 512-936-7000
www.puc.state.tx.us

The PUCT's mission is to protect customers, foster competition, and promote high quality infrastructure.

Renewable Energy Resources

Texas General Land Office (GLO)
1700 N. Congress Ave. Suite 935
Austin, Texas 78701-1495
Phone: 512-463-5001 or 1-800-998-4456
www.glo.state.tx.us/energy/sustain/index.html

The GLO provides information on renewable energy resources, including wind energy resources.

State Energy Conservation Office (SECO)

Texas Comptrollers of Public Accounts
111 East 17th Street, #1114
Austin, Texas 78701
Phone: 512-463-1931
Fax: 512-475-2569
www.seco.cpa.state.tx.us/re_wind.htm

SECO partners with Texas consumers, businesses, educators and local governments to reduce energy costs and maximize efficiency.

Texas Renewable Energy Industries Association (TREIA)

12345 Lamplight Village Avenue
Austin, TX 78758-2550
Ph.: 512-345-5446
Fax: 512-345-6831

www.treia.org/

TREIA is a statewide non-profit organization of companies and individuals involved in solar, wind, biomass, geothermal and hydro electric energy products and/or services.

Texas Wind Energy Institute

605 Indiana Ave, Box 42191,
Lubbock, TX 79406-2191
Phone: 806-742-7202

www.depts.ttu.edu/uc/windenergy/

A partnership between Texas State Technical College and Texas Tech University. The Purpose of the Texas Wind Energy Institute is to develop curriculum, course and programs, expand capacity and recruit and prepare students to meet the workforce need of the rapidly growing wind power industry in Texas.

U.S. Department of Energy (DOE)

1999 Bryan Street
Dallas, TX 75201-3123
Phone: 214-720-6150

www.energy.gov

The DOE deals with all types of energy and operates the National Renewable Energy Laboratory (NREL), which focuses on renewable energy and energy efficiency research, development, and deployment.

The Wind Alliance

1100 Louisiana Street, Suite 5005
Houston, TX 77002
Phone: 866-782-7656

<http://thewindalliance.org/>

The Wind Alliance has evolved from an initiative/division of the University of Houston, called the Lone Star Wind Alliance, to a fully functioning, independent, 501(c)(3) non-profit organization. The entity develops infrastructure, technology and workforce through pre-competitive business integration and collaborative projects between industry, academia and government within the U.S.

Wind Science & Engineering (WISE) Research Center

Texas Tech University
10th and Akron, Lubbock, TX 79409
Phone: 806-742-3476

www.depts.ttu.edu/weweb/

The WISE Research Center is focused on research, education and information outreach. The comprehensive and interdisciplinary research program aspires to exploit the useful qualities of wind and to mitigate its detrimental effects.
